

## Why a little nature on your plate matters

When you buy a Conservation Heritage license plate, you are proudly supporting the fish, forestry and wildlife programs of Missouri. More than that, you are also helping our next generation learn how to conserve, manage and use these resources. Funds from the plates will enhance nature centers, outdoor classrooms, stream teams, wildlife habitat and other conservation programs.

So, choose a bluebird, bass or deer for your plate, and show how Wild you are about this new opportunity.

The Missouri Conservation Heritage Foundation's sole purpose is to promote awareness and public support of Missouri Conservation programs. The Foundation offers you an opportunity to support natural resources and conservation through tax-deductible donations. Founded in 1997, this nonprofit organization provides additional financial support to Conservation Department projects. The Foundation is managed by a 13-member citizen board of directors.

Assistance from private citizens has always been a major influence in Missouri's natural resource programs. The Foundation is an excellent way for an interested public to contribute directly to a worthwhile project.
